### PART A—VOCATIONAL EDUCATION

Vocational Education Act of 1963.

#### DECLARATION OF PURPOSE

SECTION 1. It is the purpose of this part to authorize Federal grants to States to assist them to maintain, extend, and improve existing programs of vocational education, to develop new programs of vocational education, and to provide part-time employment for youths who need the earnings from such employment to continue their vocational training on a full-time basis, so that persons of all ages in all communities of the State—those in high school, those who have completed or discontinued their formal education and are preparing to enter the labor market, those who have already entered the labor market but need to upgrade their skills or learn new ones, and those with special educational handicaps—will have ready access to vocational training or retraining which is of high quality, which is realistic in the light of actual or anticipated opportunities for gainful employment, and which is suited to their needs, interests, and ability to benefit from such training.

#### AUTHORIZATION OF APPROPRIATIONS

SEC. 2. There are hereby authorized to be appropriated for the fiscal year ending June 30, 1964, \$60,000,000, for the fiscal year ending June 30, 1965, \$118,500,000, for the fiscal year ending June 30, 1966, \$177,500,000, and for the fiscal year ending June 30, 1967, and each fiscal year thereafter, \$225,000,000, for the purpose of making grants to States as provided in this part.

#### ALLOTMENTS TO STATES

SEC. 3. (a) Ninety per centum of the sums appropriated pursuant to section 2 shall be allotted among the States on the basis of the number of persons in the various age groups needing vocational education and the per capita income in the respective States as follows: The Commissioner shall allot to each State for each fiscal year—

(1) An amount which bears the same ratio to 50 per centum of the sums so appropriated for such year, as the product of the population aged fifteen to nineteen, inclusive, in the State in the preceding fiscal year and the State's allotment ratio bears to the sum of the corresponding products for all the States; plus

(2) An amount which bears the same ratio to 20 per centum of the sums so appropriated for such year, as the product of the population aged twenty to twenty-four, inclusive, in the State in the preceding fiscal year and the State's allotment ratio bears to the sum of the corresponding products for all the States; plus

(3) An amount which bears the same ratio to 15 per centum of the sums so appropriated for such year, as the product of the population aged twenty-five to sixty-five, inclusive, in the State in the preceding fiscal year and the State's allotment ratio bears to the sum of the corresponding products for all the States; plus

(4) an amount which bears the same ratio to 5 per centum of the sums so appropriated for such year, as the sum of the amounts allotted to the State under paragraphs (1), (2), and (3) for such year bears to the sum of the amounts allotted to all the States under paragraphs (1), (2), and (3) for such year.

(b) The amount of any State's allotment under subsection (a) for any fiscal year which is less than \$10,000 shall be increased to that amount, the total of the increases thereby required being derived by proportionately reducing the allotments to each of the remaining States under such subsection, but with such adjustments as may be necessary to prevent the allotment of any of such remaining States from being thereby reduced to less than that amount.

(c) The amount of any State's allotment under subsection (a) for any fiscal year which the Commissioner determines will not be required for such fiscal year for carrying out the State's plan approved under section 5 shall be available for reallocation from time to time, on such dates during such year as the Commissioner may fix, to other States in proportion to the original allotments to such States under such subsection for such year, but with such proportionate amount for any of such other States being reduced to the extent it exceeds the sum the Commissioner estimates such State needs and will be able to use under the approved plan of such State for such year and the total of such reductions shall be similarly reallocated among the States not suffering such a reduction. Any amount reallocated to a State under this subsection during such year shall be deemed part of its allotment under subsection (a) for such year.

(d) (1) The "allotment ratio" for any State shall be 1.00 less the product of (A) .50 and (B) the quotient obtained by dividing the per capita income for the State by the per capita income for all the States (exclusive of Puerto Rico, Guam, American Samoa, and the Virgin Islands), except that (i) the allotment ratio shall in no case be less than .40 or more than .60, and (ii) the allotment ratio for Puerto Rico, Guam, American Samoa, and the Virgin Islands shall be .60.

(2) The allotment ratios shall be promulgated by the Commissioner for each fiscal year, between July 1 and September 30 of the preceding fiscal year, except that for the fiscal year ending June 30, 1964, such allotment ratios shall be promulgated as soon as possible after the enactment of this part. Allotment ratios shall be computed on the basis of the average of the per capita incomes for a State and for all the States (exclusive of Puerto Rico, Guam, American Samoa, and the Virgin Islands) for the three most recent consecutive fiscal years for which satisfactory data is available from the Department of Commerce.

(3) The term "per capita income" for a State or for all the States (exclusive of Puerto Rico, Guam, American Samoa, and the Virgin Islands) for any fiscal year, means the total personal income for such State, and for all such States, respectively, in the calendar year ending in such fiscal year, divided by the population of such State, and of all such States, respectively, in such fiscal year.

(4) The total population and the population of particular age groups of a State or of all the States shall be determined by the Commissioner on the basis of the latest available estimates furnished by the Department of Commerce.

## USES OF FEDERAL FUNDS

SEC. 4. (a) Except as otherwise provided in subsection (b), a State's allotment under section 3 may be used, in accordance with its approved State plan, for any or all of the following purposes:

- (1) Vocational education for persons attending high school;
- (2) Vocational education for persons who have completed or left high school and who are available for full-time study in preparation for entering the labor market;

(3) Vocational education for persons (other than persons who are receiving training allowances under the Manpower Development and Training Act of 1962 (Public Law 87-415), the Area Redevelopment Act (Public Law 87-27), or the Trade Expansion Act of 1962 (Public Law 87-794)) who have already entered the labor market and who need training or retraining to achieve stability or advancement in employment;

(4) Vocational education for persons who have academic, socioeconomic, or other handicaps that prevent them from succeeding in the regular vocational education program;

(5) Construction of area vocational education school facilities;

(6) Ancillary services and activities to assure quality in all vocational education programs, such as teacher training and supervision, program evaluation, special demonstration and experimental programs, development of instructional materials, and State administration and leadership, including periodic evaluation of State and local vocational education programs and services in light of information regarding current and projected manpower needs and job opportunities.

(b) At least 33 1/3 per centum of each State's allotment for any fiscal year ending prior to July 1, 1968, and at least 25 per centum of each State's allotment for any subsequent fiscal year shall be used only for the purposes set forth in paragraph (2) or (5), or both, of subsection (a), and at least 3 per centum of each State's allotment shall be used only for the purposes set forth in paragraph (6) of subsection (a), except that the Commissioner may, upon request of a State, permit such State to use a smaller percentage of its allotment for any year for the purposes specified above if he determines that such smaller percentage will adequately meet such purposes in such State.

(c) Ten per centum of the sums appropriated pursuant to section 2 for each fiscal year shall be used by the Commissioner to make grants to colleges and universities, and other public or nonprofit private agencies and institutions, to State boards, and with the approval of the appropriate State board, to local educational agencies, to pay part of the cost of research and training programs and of experimental, developmental, or pilot programs developed by such institutions, boards, or agencies, and designed to meet the special vocational education needs of youths, particularly youths in economically depressed communities who have academic, socioeconomic, or other handicaps that prevent them from succeeding in the regular vocational education programs.

(5) sets forth such fiscal control and fund accounting procedures as may be necessary to assure proper disbursement of, and accounting for, Federal funds paid to the State (including such funds paid by the State to local educational agencies) under this part;

(6) provides assurance that the requirements of section 7 will be complied with on all construction projects in the State assisted under this part; and

(7) provides for making such reports in such form and containing such information as the Commissioner may reasonably require to carry out his functions under this part, and for keeping such records and for affording such access thereto as the Commissioner may find necessary to assure the correctness and verification of such reports.

(b) The Commissioner shall approve a State plan which fulfills the conditions specified in subsection (a), and shall not finally disapprove a State plan except after reasonable notice and opportunity for a hearing to the State board designated pursuant to paragraph (1) of such subsection.

(c) Whenever the Commissioner, after reasonable notice and opportunity for hearing to the State board administering a State plan approved under subsection (b), finds that—

(1) the State plan has been so changed that it no longer complies with the provisions of subsection (a), or

(2) in the administration of the plan there is a failure to comply substantially with any such provision, the Commissioner shall notify such State board that no further payments will be made to the State under this part (or, in his discretion, further payments to the State will be limited to programs under or portions of the State plan not affected by such failure) until he is satisfied that there will no longer be any failure to comply. Until he is so satisfied, the Commissioner shall make no further payments to such State under this part (or shall limit payments to programs under or portions of the State plan not affected by such failure).

(d) A State board which is dissatisfied with a final action of the Commissioner under subsection (b) or (c) may appeal to the United States court of appeals for the circuit in which the State is located, by filing a petition with such court within sixty days after such final action. A copy of the petition shall be forthwith transmitted by the clerk of the court to the Commissioner, or any officer designated by him for that purpose. The Commissioner thereupon shall file in the court the record of the proceedings on which he based his action, as provided in section 2112 of title 28, United States Code. Upon the filing of such petition, the court shall have jurisdiction to affirm the action of the Commissioner or to set it aside, in whole or in part, temporarily or permanently, but until the filing of the record the Commissioner may modify or set aside his action. The findings of the Commissioner as to the facts, if supported by substantial evidence, shall be conclusive, but the court, for good cause shown, may remand the case to the Commissioner to take further evidence, and the Commissioner may thereupon make new or modified findings of fact and may modify his previous action, and shall file in the court the record of the further proceedings. Such new or modified findings of fact shall likewise be conclusive if supported by substantial evidence. The judgment of the court affirming or setting aside, in whole or in part, any action of the Commissioner shall be final, subject to review by the Supreme Court of the United States upon certiorari or certification as provided in section 1254 of title 28, United States Code. The commencement of proceedings under this subsection shall not, unless so specifically ordered by the court, operate as a stay of the Commissioner's action. 72 Stat. 941.

#### WORK-STUDY PROGRAMS FOR VOCATIONAL EDUCATION STUDENTS

Sec. 13. (a) (1) From the sums appropriated pursuant to section 15 and determined to be for the purposes of this section for each fiscal year, the Commissioner shall allot to each State an amount which bears the same ratio to the sums so determined for such year as the population aged fifteen to twenty, inclusive, of the State, in the preceding fiscal year bears to the population aged fifteen to twenty, inclusive, of all the States in such preceding year.

(2) The amount of any State's allotment under paragraph (1) for any fiscal year which the Commissioner determines will not be required for such fiscal year for carrying out the State's plan approved under subsection (b) shall be available for reallocation from time to time, on such dates during such year as the Commissioner may fix, to other States in proportion to the original allotments to such States under paragraph (1) for such year, but with such proportionate amount for any of such other States being reduced to the extent it exceeds the sum the Commissioner estimates such State needs and will be able to use for such year and the total of such reductions shall be similarly reallocated among the States not suffering such a reduction. Any amount reallocated to a State under this paragraph during such year shall be deemed part of its allotment for such year.

(b) To be eligible to participate in this section, a State must have in effect a plan approved under section 5 and must submit through its State board to the Commissioner a supplement to such plan (hereinafter referred to as a "supplementary plan"), in such detail as the Commissioner determines necessary, which—

(1) designates the State board as the sole agency for administration of the supplementary plan, or for supervision of the administration thereof by local educational agencies;

(2) sets forth the policies and procedures to be followed by the State in approving work-study programs, under which policies and procedures funds paid to the State from its allotment under subsection (a) will be expended solely for the payment of compensation of students employed pursuant to work-study programs which meet the requirements of subsection (c), except that not to exceed 1 per centum of any such allotment, or \$10,000, whichever is the greater, may be used to pay the cost of developing the State's supplementary plan and the cost of administering such supplementary plan after its approval under this section;

(3) sets forth principles for determining the priority to be accorded applications from local educational agencies for work-study programs, which principles shall give preference to applications submitted by local educational agencies serving communities having substantial numbers of youths who have dropped out of school or who are unemployed, and provides for undertaking such programs, insofar as financial resources available therefor make possible, in the order determined by the application of such principles;

(4) sets forth such fiscal control and fund accounting procedures as may be necessary to assure proper disbursement of, and accounting for, Federal funds paid to the State (including such funds paid by the State to local educational agencies) under this section;

(5) provides for making such reports in such form and containing such information as the Commissioner may reasonably require to carry out his functions under this section, and for keeping such records and for affording such access thereto as the Commissioner may find necessary to assure the correctness and verification of such reports.

(c) For the purposes of this section, a work-study program shall—

(1) be administered by the local educational agency and made reasonably available (to the extent of available funds) to all youths in the area served by such agency who are able to meet the requirements of paragraph (2);

(2) provide that employment under such work-study program shall be furnished only to a student who (A) has been accepted for enrollment as a full-time student in a vocational education program which meets the standards prescribed by the State board and the local educational agency for vocational education programs assisted under the preceding sections of this part, or in the case of a student already enrolled in such a program, is in good standing and in full-time attendance, (B) is in need of the earnings from such employment to commence or continue his vocational education program, and (C) is at least fifteen years of age and less than twenty-one years of age at the commencement of his employment, and is capable, in the opinion of the appropriate school authorities, of maintaining good standing in his vocational education program while employed under the work-study program;

(3) provide that no student shall be employed under such work-study program for more than fifteen hours in any week in which classes in which he is enrolled are in session, or for compensation which exceeds \$45 in any month or \$350 in any academic year or its equivalent, unless the student is attending a school which is not within reasonable commuting distance from his home, in which case his compensation may not exceed \$60 in any month or \$500 in any academic year or its equivalent;

(4) provide that employment under such work-study program shall be for the local educational agency or for some other public agency or institution;

(5) provide that, in each fiscal year during which such program remains in effect, such agency shall expend (from sources other than payments from Federal funds under this section) for the employment of its students (whether or not in employment eligible for assistance under this section) an amount that is not less than its average annual expenditure for work-study programs of a similar character during the three fiscal years preceding the fiscal year in which its work-study program under this section is approved.

(d) Subsections (b), (c), and (d) of section 5 (pertaining to the approval of State plans, the withholding of Federal payments in case of nonconformity after approval, and judicial review of the Commissioner's final actions in disapproving a State plan or withholding payments) shall be applicable to the Commissioner's actions with respect to supplementary plans under this section.

(e) From a State's allotment under this section for the fiscal year ending June 30, 1965, and for the fiscal year ending June 30, 1966, the Commissioner shall pay to such State an amount equal to the amount expended for compensation of students employed pursuant to work-study programs under the State's supplementary plan approved under this section, plus an amount, not to exceed 1 per centum of such allotment, or \$10,000, whichever is the greater, expended for the development of the State's supplementary plan and for the administration of such plan after its approval by the Commissioner. From a State's allotment under this section for the fiscal year ending June 30, 1967, and for the next succeeding fiscal year, such payment shall equal 75 per centum of the amount so expended. No State shall receive payments under this section for any fiscal year in excess of its allotment under subsection (a) for such fiscal year.

(f) Such payments (adjusted on account of overpayments or underpayments previously made) shall be made by the Commissioner in advance on the basis of such estimates, in such installments, and at such times, as may be reasonably required for expenditures by the States of the funds allotted under subsection (a).

(g) Students employed in work-study programs under this section shall not by reason of such employment be deemed employees of the United States, or their service Federal service, for any purpose.
